Reviewer's report

Title: Hospitalization for Pertussis in the United States: Profiles and Case Costs by Age.

Version: 4 Date: 24 June 2005

Reviewer: Grace Lee

Reviewer's report:

General
Revisions have considered original suggestions.

-----------------------------------------------------------------------------------------------
Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

-----------------------------------------------------------------------------------------------
Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

-----------------------------------------------------------------------------------------------
Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No
