Reviewer's report

**Title:** Lack of association between serological evidence of past Coxiella burnetii infection and incident ischaemic heart disease: nested case-control study

**Version:** 2 **Date:** 22 June 2005

**Reviewer:** Tom J Marrie

**Reviewer's report:**

General
The revisions are acceptable.

-------------------------------------------------------------------------------

**Major Compulsory Revisions** (that the author must respond to before a decision on publication can be reached)

-------------------------------------------------------------------------------

**Minor Essential Revisions** (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

-------------------------------------------------------------------------------

**Discretionary Revisions** (which the author can choose to ignore)
