Reviewer's report

Title: Persistence of lipoatrophy after a four-year long interruption of antiretroviral therapy for HIV1 infection: case report

Version: 2 Date: 6 September 2005

Reviewer: Brian Boyle

Reviewer's report:

General
Improved and worthy of publication. All concerns of prior review have been adequately addressed.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)
None

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)
None

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No
