Reviewer's report

Title: Limitations of caspofungin in the treatment of obstructive pyonephrosis due to Candida glabrata infection

Version: 2 Date: 13 July 2006
Reviewer: Maria do Rosario Silva

Reviewer's report:

General
Reviewer' response
Although a single case is not sufficient to limit the use of caspofungin in Candida resistant I believe that the manuscript "Limitation of caspofungin in the treatment of obstructive pyonephrosis due to Candida glabrata infection" is important for clinical analysis. The author incorporated all the questions necessary for publication.
I hope to help with this revision.
