Reviewer's report

Title: How long do nosocomial pathogens persist on inanimate surfaces? A systematic review

Version: 3 Date: 14 August 2006

Reviewer: Bala Hota

Reviewer's report:

General

-------------------------------------------------------------------------------------------------
Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)
None

-------------------------------------------------------------------------------------------------
Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)
In the added figure, would decapitalize the word "Surface" and make "surface"

-------------------------------------------------------------------------------------------------
Discretionary Revisions (which the author can choose to ignore)

What next?: Accept after minor essential revisions

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No
