Reviewer’s report

Title: A fatal pseudo-tumour: disseminated basidiobolomycosis

Version: 3 Date: 31 May 2006

Reviewer: Tom V Colby

Reviewer’s report:

General
Well documented case report. See minor comments below.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)
It is not clear this patient died of B. ranarum but rather with B. ranarum and associated bacterial septic shock. Not sure the B. ranarum was the direct cause of death.

What next?: Accept after discretionary revisions

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No

Declaration of competing interests:
