Reviewer's report

Title: In vivo activity of terpinen-4-ol, the main bioactive component of Melaleuca alternifolia Cheel (tea tree) oil against azole-susceptible and -resistant human pathogenic Candida species

Version: 3 Date: 19 October 2006
Reviewer: David Wedge

Reviewer's report:

General

-----------------------------------------------
Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

-----------------------------------------------
Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

-----------------------------------------------
Discretionary Revisions (which the author can choose to ignore)

The author's additions of Kovat Indexes and clarifications as requested will greatly improve the quality of the manuscript.

Please accept the manuscript as submitted in the new revision.

What next?: Accept without revision

Level of interest: An article of importance in its field
