Reviewer's report

Title: Active surveillance of Q fever in human and animal population of Cyprus

Version: 2 Date: 16 December 2005

Reviewer: philippe brouqui

Reviewer's report:

General

The MS has been greatly improved and is now acceptable for publication.

------------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

------------------------------------------------------------------------------------

Reference should be tested carefully as references 1 is the same than Ref 16 ++++

------------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

------------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

------------------------------------------------------------------------------------

What next?: Accept after minor essential revisions

Quality of written English: Acceptable
