Reviewer's report

Title: Spatial analysis of hemorrhagic fever with renal syndrome in China

Version: 2 Date: 16 March 2006

Reviewer: Arthur Getis

Reviewer's report:

General
A nicely produced paper.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

The entire manuscript is filled with grammatical errors common to Asian scholars who have not had their manuscripts proof-read by native English speakers.

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept after minor essential revisions

Level of interest: An article of importance in its field

Quality of written English: Needs some language corrections before being published

Statistical review: No
