Reviewer's report

Title: The interferon gamma gene polymorphism +874 A/T is associated with severe acute respiratory syndrome

Version: 2 Date: 24 April 2006

Reviewer: Maria R. R Capobianchi

Reviewer's report:

General
The new version is actually improved, and the paper is now acceptable for publication

-------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

-------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

-------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No
