Reviewer’s report

**Title:** Longer pregnancy and slower fetal development in women with latent "asymptomatic" toxoplasmosis

**Version:** 3  **Date:** 5 September 2007

**Reviewer:** Joseph Beyene

**Reviewer’s report:**

**General**

The authors have responded to my comments adequately.

----------------------------------------------------------------------------------------------------------------------------------

**Major Compulsory Revisions** (that the author must respond to before a decision on publication can be reached)

----------------------------------------------------------------------------------------------------------------------------------

**Minor Essential Revisions** (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

----------------------------------------------------------------------------------------------------------------------------------

**Discretionary Revisions** (which the author can choose to ignore)

----------------------------------------------------------------------------------------------------------------------------------

**What next?:** Accept without revision

**Level of interest:** An article whose findings are important to those with closely related research interests

**Quality of written English:** Acceptable

**Statistical review:** No, the manuscript does not need to be seen by a statistician.

**Declaration of competing interests:**

I declare that I have no competing interests
