Reviewer's report

Title: The HIV/AIDS epidemic in Cuba: Why a low prevalence?

Version: 1 Date: 2 August 2007

Reviewer: Javier R. Lama

Reviewer's report:

General

---------------------------------------------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

---------------------------------------------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

---------------------------------------------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

It would be worthy if authors can short the introduction because second and third paragraph almost provide the same information but from two different sources.

What next?: Accept after minor essential revisions

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
