Reviewer’s report

Title: Treating cutaneous leishmaniasis patients in Kabul, Afghanistan: cost-effectiveness of an operational program in a complex emergency setting.

Version: 3 Date: 22 December 2006

Reviewer: Theo Vos

Reviewer’s report:

General

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)
You may want to restrict your results to presentation of two significant digits only. This is considered good practice in economic evaluation to avoid overemphasising precision. Thus, your ICEr would be $1200 per DALY and not $1180.5

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept after discretionary revisions

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
