Reviewer's report

Title: Low CD4 Count plus Coma Predicts Cryptococcal Meningitis in Tanzania

Version: 3 Date: 1 April 2007

Reviewer: Ploenchan Chetchotisakd

Reviewer's report:

General
The revised manuscript is good and acceptable for publication.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.

Declaration of competing interests:
I declare that I have no competing interests
