Reviewer's report

Title: Nasal Carriage of a Single Clone of Community-Acquired Methicillin-Resistant Staphylococcus aureus among Kindergarten Attendees in Northern Taiwan

Version: 3 Date: 18 May 2007

Reviewer: Linda K McDougal

Reviewer's report:

General
The authors have addressed my comments and revised manuscript to my satisfaction.

-------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

-------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

-------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

-------------------------------------------------------------------------------

What next?: Accept without revision

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
