Reviewer’s report

Title: Prevalence of Vancomycin-Resistant Enterococci colonization and its risk factors in chronic hemodialysis patients in Shiraz, Iran

Version: 2 Date: 10 May 2007

Reviewer: Robert Weinstein

Reviewer’s report:

General
The authors have responded to the prior suggestions. I have no further recommendations.

-----------------------------------------------------------------------------------
Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)
-----------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)
-----------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)
-----------------------------------------------------------------------------------

What next?: Accept without revision

Level of interest: An article of insufficient interest to warrant publication in a scientific/medical journal

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
