Reviewer's report

Title: Predictive factors of virological success to salvage regimens in HIV-1 infected children

Version: 4 Date: 2 May 2007

Reviewer: Gene D Morse

Reviewer's report:

General

__________________________________________________________________________________________
Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)
The revised manuscript includes a statement in the Methods section that adherence was evaluated. However, there is no mention of adherence in the Results section. There is also no mention of how adherence may have impacted on the findings of the manuscript.
__________________________________________________________________________________________

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)
Salvage is misspelled throughout.
__________________________________________________________________________________________

Discretionary Revisions (which the author can choose to ignore)

What next?: Unable to decide on acceptance or rejection until the authors have responded to the major compulsory revisions

Level of interest: An article of importance in its field

Quality of written English: Needs some language corrections before being published

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.

Declaration of competing interests:
