Reviewer's report

Title: Serological disease status of Pakistani population infected with Hepatitis B

Version: 4 Date: 14 May 2007

Reviewer: Pietro Luigi Lopalco

Reviewer's report:

General

None

--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

None

--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

In my opinion it would be better to add the denominators to the figures in table 1 (i.e. 14/xxxx - 38/xxxx, etc.)

--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

None

What next?: Accept after minor essential revisions

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.

Declaration of competing interests:
