Reviewer's report

Title: Identification of Gene Targets against Dormant Phase Mycobacterium tuberculosis Infections

Version: 2 Date: 12 June 2007

Reviewer: Valerie Mizrahi

Reviewer's report:

General
I am satisfied that the authors have satisfactorily addressed all of the points raised in my review of the original draft.

-------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

-------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

-------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
