Reviewer's report

Title: The pathogen recognition sensor, NOD2, is variably expressed in patients with pulmonary tuberculosis.

Version: 2 Date: 31 July 2007

Reviewer: Giovanni Ferrara

Reviewer's report:

General

-------------------------------------------------------------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

-------------------------------------------------------------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

-------------------------------------------------------------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore).

What next?: Accept without revision

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
