Reviewer’s report

Title: A cohort study to evaluate persistence of hepatitis b immunogenicity after administration of hexavalent vaccines.

Version: 1 Date: 11 March 2008

Reviewer: Renzo RT Trivello

Reviewer’s report:

The authors performed a study to evaluate persistence of HBV immunogenicity in two groups of children vaccinated with hexavalent vaccines.

Minor Essential Revisions
Methods: clarification of the method used to define sample size
Results: the results of multivariate analysys should be expanded (i.e. insert a Table)
Table 3: in not necessary.

What next?: Accept after minor essential revisions

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Needs some language corrections before being published

Statistical review: Yes, and I have assessed the statistics in my report.
