Reviewer's report

Title: Schistosomiasis transmission at high altitude crater lakes in Western Uganda

Version: 4 Date: 30 June 2008

Reviewer: Russell Stothard

Reviewer's report:

I have looked at the manuscript and the authors have improved the content and included the figure for illustrating the locations of the crater lakes. Personally, I don’t think the map is very well drawn but I leave this to your editorial discretion.

There are errors in the reference list both in authors name e.g. George Greer and formatting so these need tidying up with your editorial guidance.

Otherwise I am satisfied that the content is suitable for publication.
