Reviewer's report

**Title:** immunological predictors of CD4+ T cell decline in antiretroviral treatment interruptions

**Version:** 2  **Date:** 8 January 2008

**Reviewer:** Jonathan Angel

**Reviewer's report:**

I have reviewed the revised version of the manuscript. I think that the authors have adequately addressed my concerns. The only issue that remains is the quality of the English. This is particularly true for the parts that were added to address the initial concerns.

**What next?:** Accept after minor essential revisions

**Level of interest:** An article whose findings are important to those with closely related research interests

**Quality of written English:** Needs some language corrections before being published

**Statistical review:** Yes, but I do not feel adequately qualified to assess the statistics.

**Declaration of competing interests:**
