Reviewer's report

**Title:** Endothelin-1 precursor peptides correlate with severity of disease and outcome in patients with community acquired pneumonia

**Version:** 6 **Date:** 26 January 2008

**Reviewer:** John Marshall

**Reviewer's report:**

Thank you for your response to my previous comments.

**What next?:** Accept after minor essential revisions

**Level of interest:** An article whose findings are important to those with closely related research interests

**Quality of written English:** Needs some language corrections before being published

**Statistical review:** No, the manuscript does not need to be seen by a statistician.

**Declaration of competing interests:**

I have served as a paid advisor to BRAHMS Diagnostica
