Reviewer’s report

Title: The United States and Canada as a coupled epidemiological system: an example from hepatitis A

Version: 3 Date: 29 November 2007

Reviewer: Roland Diel

Reviewer’s report:

To my mind the authors’ replies are convincing and the manuscript has been improved. I can not find any general statistical faults. Thus, the manuscript should be accepted.

What next?: Accept without revision

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests.
