Reviewer’s report

Title: Roles of TNF-alpha gene polymorphisms in the occurrence and progress of SARS-Cov infection: a case-control study

Version: 3 Date: 21 December 2007

Reviewer: Friedemann Weber

Reviewer’s report:

I think the paper has improved compared to the first version. The spoken english terms such as "didn't" etc should be turned into written english.

What next?: Accept after discretionary revisions

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
