Reviewer's report

Title: Spectral analysis of HIV seropositivity among migrant workers entering Kuwait

Version: 1 Date: 14 December 2007

Reviewer: Maria A. Pando

Reviewer's report:

Major Compulsory Revisions

Information about ethical issues should be added. There is not information about Inform Consent. Is HIV diagnosis mandatory in this country for immigrants?. This very important issue should be explained.

Minor Essential Revisions

More epidemiological data about HIV in the country and the region must be added in order to understand the situation.

The two figures should be explained in detail in results section.

What next?: Unable to decide on acceptance or rejection until the authors have responded to the major compulsory revisions

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
