Reviewer's report

Title: Serum procalcitonin elevation in the critically ill patients at the onset of bacteremia caused by either gram negative or gram positive bacteria

Version: 2 Date: 25 February 2008

Reviewer: Vandack Nobre

Reviewer's report:

I have read the revised version of the MS: 2073137293171509, as well as the authors' comments. In my opinion, the revised MS is satisfactory to be published in BMC Infectious Diseases. Moreover, the statistics used are appropriate for the proposed objectives.
