Reviewer’s report

Title: Geographical information system and predictive risk maps of urinary schistosomiasis in Ogun State, Nigeria

Version: 3 Date: 16 May 2008

Reviewer: Robert Bergquist

Reviewer’s report:

I am impressed that the authors, seemingly produced the text themselves without much help from the outside. I think it has improved considerably and is well worth publishing. The kind of approach applied by the authors to find the risk-areas is convincing and it is also useful as a means of improving control activities.

Since I went through the paper also from an editorial point of view I have suggested a number of further minor improvements (attached).

Advice on publication: Other
