Reviewer's report

Title: High prevalence of HSV-2 among rural pregnant women in Tanzania

Version: 3 Date: 5 February 2008

Reviewer: sia msuya

Reviewer's report:

After reviewing the manuscript i am satisfied with the way the authors have addressed the reviewers comments. I believe it improved the manuscript and will add to the body of knowledge on epidemiology of HSV-2 and HIV in Tanzania.

What next?: Accept without revision

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
