Reviewer's report

Title: Brain injury-associated biomarkers of TGF-beta1, S100B, GFAP, NF-L, tTG, AbetaPP, and tau were concomitantly enhanced and the UPS was impaired during acute brain injury caused by Toxocara canis in mice

Version: 2 Date: 9 May 2008

Reviewer: Nobuaki AKAO

Reviewer's report:

The revised manuscript is thoroughly reconsidered according to the comments of this reviewer. Therefore, this reviewer recommends that this paper can be acceptable for BMC Infectious Diseases.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.

Declaration of competing interests:

I declare that I have no competing interests.
