Reviewer's report

Title: Persistence of the immune response induced by BCG vaccination.

Version: 4 Date: 23 October 2007

Reviewer: Martin Ota

Reviewer's report:

General
Authors have satisfactorily addressed reviewers' comments, and adequately highlighted the weaknesses and strengths of the manuscript.

------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)
None

------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)
None

------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)
None

What next?: Accept without revision

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
