Reviewer's report

Title: Emerging pneumococcal carriage serotypes in a high-risk population receiving universal 7-valent pneumococcal conjugate vaccine since 2001.

Version: 2 Date: 16 March 2009

Reviewer: Eugene Leibovitz

Reviewer's report:

I think the authors provided appropriate and exact answers to all my comments, questions and suggestions.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests
