Reviewer's report

**Title:** Genotype distribution of human papillomavirus (HPV) and co-infections in cervical cytologic specimens from two outpatient gynecological clinics in a region of southeast Spain

**Version:** 2  **Date:** 26 May 2009

**Reviewer:** Jean-Luc Pretet

**Reviewer's report:**

First I would like to point out that I have appreciated the great effort made by the authors to revise their manuscript and most of the comments I have made has been taken into account.

**Major Compulsory Revisions:** none

**Minor essential Revisions:**
- line 115 : "Undetermined" and not "unknown"
- Line 124 "Instruction manual" and not "instructions manual"
- As a all English should be corrected
- Paragraph "genotypes found as co-infection" : I believe that this paragraph should be rewritten for clarity.

**Discretionaray Revisions:** none

**Level of interest:** An article whose findings are important to those with closely related research interests

**Quality of written English:** Needs some language corrections before being published

**Statistical review:** Yes, but I do not feel adequately qualified to assess the statistics.

**Declaration of competing interests:**

I received fees from Sanofi Pasteur MSD and GSK
