Reviewer’s report

Title: Clinical Importance of Newly Formed Cystic Lesions for the Development of Pneumomediastinum in Pneumocystis jirovecii Pneumonia

Version: 4 Date: 13 September 2009

Reviewer: Alison Morris

Reviewer’s report:

Major compulsory revisions:

1. Although the authors have changed the title, I would take out the "Clinical Importance of" part and just leave it as a description of the findings.

Minor essential revisions:

Would also change infiltration to infiltrates in the text.

Level of interest: An article of limited interest

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare I have no competing interests.
