Reviewer's report

Title: HIV-1 subtype and viral tropism determination for evaluating antiretroviral therapy options: An analysis of archived Kenyan blood samples.

Version: 2 Date: 1 September 2009

Reviewer: Wolfgang Preiser

Reviewer's report:

The authors have successfully addressed all relevant points criticised by both reviewers. The study is still only relatively small but it merits publication.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests.
