Reviewer's report

Title: Herpes simplex virus type 2 seroprevalence and risk factors among men who have sex with men from Rio de Janeiro, Brazil: a cross-sectional study

Version: 2 Date: 10 February 2009

Reviewer: Andreas Sauerbrei

Reviewer's report:

The points of criticism have been answered and included in the revised manuscript. However, I have to criticize that the Conclusion section added to the revised manuscript has not been written as conclusions from this study. Therefore, this section must be changed before the manuscript can be published.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests.
