Reviewer's report

Title: Volume Tracking: A new method for quantitative assessment and visualization of intracardiac blood flow from three-dimensional, time-resolved, three-component magnetic resonance velocity mapping

Version: 7 Date: 11 March 2011

Reviewer: umberto morbiducci

Reviewer's report:

The authors have satisfactorily answered to my comments. I have no further concerns. I would also express my appreciation for the study. In the opinion of this reviewer, the revised manuscript is now suitable for publication in BMC Medical Imaging.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests
