Reviewer's report

Title: An unusual presentation of multiple cavitated lung metastases from colon carcinoma.

Version: 1 Date: 4 February 2011

Reviewer: Stavros Charalambous

Reviewer's report:

I have reviewed the manuscript and my comments are follow:

1. 'I declare that I have no competing interests'

2. Accepted after discretionary revisions. Needs some language corrections before being published. Passive voice is highly recommended instead of the use of “we” as it provides a more scientific tone to the presentation of the case.
