Reviewer’s report

Title: The functional magnetic resonance imaging (fMRI) procedure as experienced by healthy participants and stroke patients

Version: 2 Date: 26 March 2009

Reviewer: Frank MacMaster

Reviewer’s report:

The authors have addressed previous concerns. However, given the weaknesses of the study, the authors should explicitly frame the study as a pilot study.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests.
