Reviewer's report

Title: Common genetic variation in the Estrogen Receptor Beta (ESR2) gene and osteoarthritis: results of a meta-analysis

Version: 1 Date: 2 July 2010

Reviewer: Young Ho Lee

Reviewer's report:

1) I recommend that authors make result tables.
2) I think it is needed to do subgroup analysis based on HWE
3) Authors did allele analysis, but further genotype analysis will be valuable.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.
