Reviewer's report

Title: Fibrinogen beta variants confer protection against coronary artery disease in a Greek case-control study

Version: 2 Date: 2 September 2009

Reviewer: Charalambos Antoniades

Reviewer's report:

The revised manuscript is significantly improved, and it merits publication. I have no further comments.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.

Declaration of competing interests:
