Reviewer's report

Title: The CTLA4 variants may interact with the IL23R- and NOD2-conferred risk in development of Crohn's disease

Version: 2 Date: 6 March 2010

Reviewer: Bing Xia

Reviewer's report:

1. The revised manuscript does not shown clearly where revision was made compared with previous manuscript. I can not find changes to answer my questions.
2. there are several mistakes in missing names of authors in references.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
