Reviewer’s report

Title: Association between polymorphisms in the coagulation factor VII gene and coronary heart disease risk in different ethnicities: a meta-analysis

Version: 2 Date: 31 May 2011

Reviewer: Caroline Hayward

Reviewer’s report:

I still find this article confusing. A table with appropriate p-values may clarify matters. Is P<0.05 an appropriate level of significance for this analysis?

Level of interest: An article of limited interest

Quality of written English: Needs some language corrections before being published

Statistical review: Yes, and I have assessed the statistics in my report.

Declaration of competing interests:
