Reviewer's report

**Title:** Antiretroviral treatment-induced dyslipidemia in HIV-infected patients is influenced by the APOC3-related rs10892151 polymorphism

**Version:** 2  **Date:** 21 August 2011

**Reviewer:** Hassan Khan

**Reviewer's report:**

General Comment: Authors have addressed most of the reviewer concerns and incorporated appropriate yet significant limitations of the study.

Minor changes: Please revise your manuscript for English language mistakes.

**Level of interest:** An article whose findings are important to those with closely related research interests

**Quality of written English:** Needs some language corrections before being published

**Statistical review:** Yes, and I have assessed the statistics in my report.

**Declaration of competing interests:**

I declare that I have no competing interests' below
