Reviewer's report

Title: Clinical and genetic analyses of three Korean families with hereditary hemorrhagic telangiectasia

Version: 2 Date: 2 August 2011

Reviewer: gaetan lesca

Reviewer's report:

The response of the authors to my suggestions is fully satisfactory. The additional in vivo experiment they provided is a valuable confirmation of the functional consequences of the c.1-127C>T ENG mutation.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
