Reviewer's report

**Title:** High frequency of known copy number abnormalities and maternal duplication 15q11-q13 in patients with combined schizophrenia and epilepsy

**Version:** 3  **Date:** 12 August 2011

**Reviewer:** George Kirov

**Reviewer's report:**

The authors have improved the text substantially.

Discretionary Revisions: If they cannot obtain information on whether these CNVs have been reported in other publications, they should at least state in the text whether they think this might be the case.

**Level of interest:** An article of importance in its field

**Quality of written English:** Acceptable

**Statistical review:** No, the manuscript does not need to be seen by a statistician.

**Declaration of competing interests:**

I declare that I have no competing interests
