Reviewer’s report

Title: Clinical and Molecular Characterization of Ataxia with Oculomotor Apraxia Patients In Saudi Arabia

Version: 4 Date: 15 December 2010

Reviewer: Maria-Ceu MOREIRA

Reviewer’s report:

Final comments:
I thank Dr. Bohlega and colleagues for the revised version of the “Clinical and Molecular Characterization of Ataxia with Oculomotor Apraxia Patients in Saudi Arabia” manuscript. The modifications made fulfil my recommendations; consequently I recommend the manuscript for publication. However, some minor spelling errors remain and should be corrected.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
I declare that I have no competing interests.
