Reviewer's report

**Title:** ATA homozigosity in the IL-10 gene promoter is a risk factor for schizophrenia in Spanish females: a case control study.

**Version:** 1  **Date:** 8 December 2010

**Reviewer:** Ted Dinan

**Reviewer's report:**

Overall, I like the paper and think it is well written.

Perhaps more attention could be paid to incorporating the results within the context of the large volume of published findings on schizophrenia and an inflammatory state.

**Level of interest:** An article of importance in its field

**Quality of written English:** Acceptable

**Statistical review:** No, the manuscript does not need to be seen by a statistician.
