Reviewer's report

Title: High-resolution SNP array analysis of patients with developmental disorder and normal array CGH results

Version: 5 Date: 10 July 2012

Reviewer: Jan Friedman

Reviewer's report:

The additional revisions made by the authors are satisfactory to me.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

No conflicts.
